

# Smart-View FDM

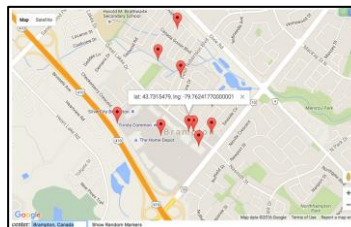

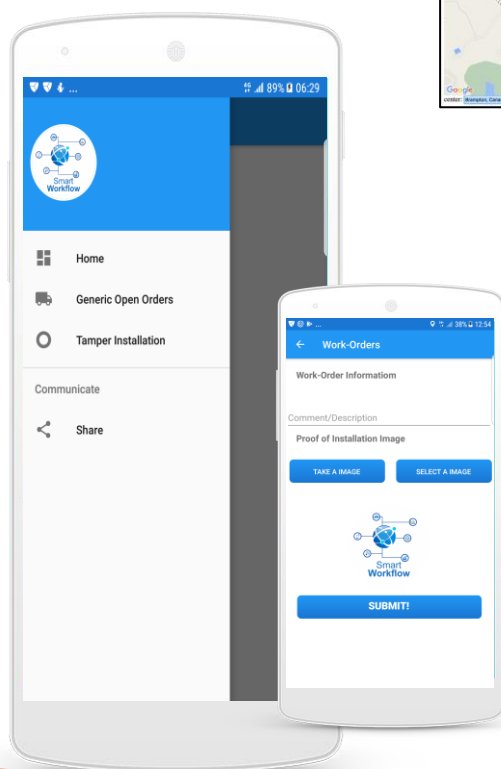

**FIELD MANAGEMENT, SIMPLIFYING ADMINISTRATION & IMPROVED DEPLOYMENT MANAGEMENT**

The hassle of printing job cards, finding available people to do the job and never knowing the status of completion has now been made easy with Smart-View Field Deployment Manager.

## Benefits

- FDM helps you create and push jobs to a mobile application.
- Manage & keep track of the progress and the status of jobs eg. pending, assigned or completed.
- The web interface gives you real time information with Geolocation.
- Assign and control administrators and field users activity.

## FDM mobile application

	Total Jobs Created To Date <b>83</b>
	Total Jobs Completed To Date <b>83</b>
	Total Jobs Pending Completion <b>0</b>
	Total Jobs Pending Assignment <b>0</b>

## Features

- Simple work assignment from android application.
- Geolocation navigator for all work-orders to either collection or service address.
- Create generic work-orders.
- Google forms integration to capture additional information.
