

Smart-View Tamper

REDUCING COST, SIMPLIFYING ADMINISTRATION, IMPROVING EFFICIENCY

Smart-View Tamper is a comprehensive tamper management software suite offering a customizable platform.

Prevent tamper with Smart-View anti-tamper solution that's able to detect an attempt to breach any of the applications.

- Manhole cover Tilted or Tampered detection.
- Manhole cover Open state detection.
- Door / Gate tampering.

Smart-View report a change in movement and tilt – triggers an alarm, resulting in better security control. Add that to the fact that it generates data, offers traceability and responsibility boundaries.

Benefits

- Detect Tamperers in real-time.
- Detect Real-Time Disconnected Devices.
- Detect Low Battery Power.
- Reduced tamper investigation time.
- Efficient crew dispatch.
- Instantaneous Alerts by email.
